

“Wait, let me find that
spreadsheet...”

The Momentum Killer.

We call it the ‘Context Gap’—the delay between having a thought and retrieving the data to support it.

20%

The average employee spends nearly 20% of their week searching for internal information.

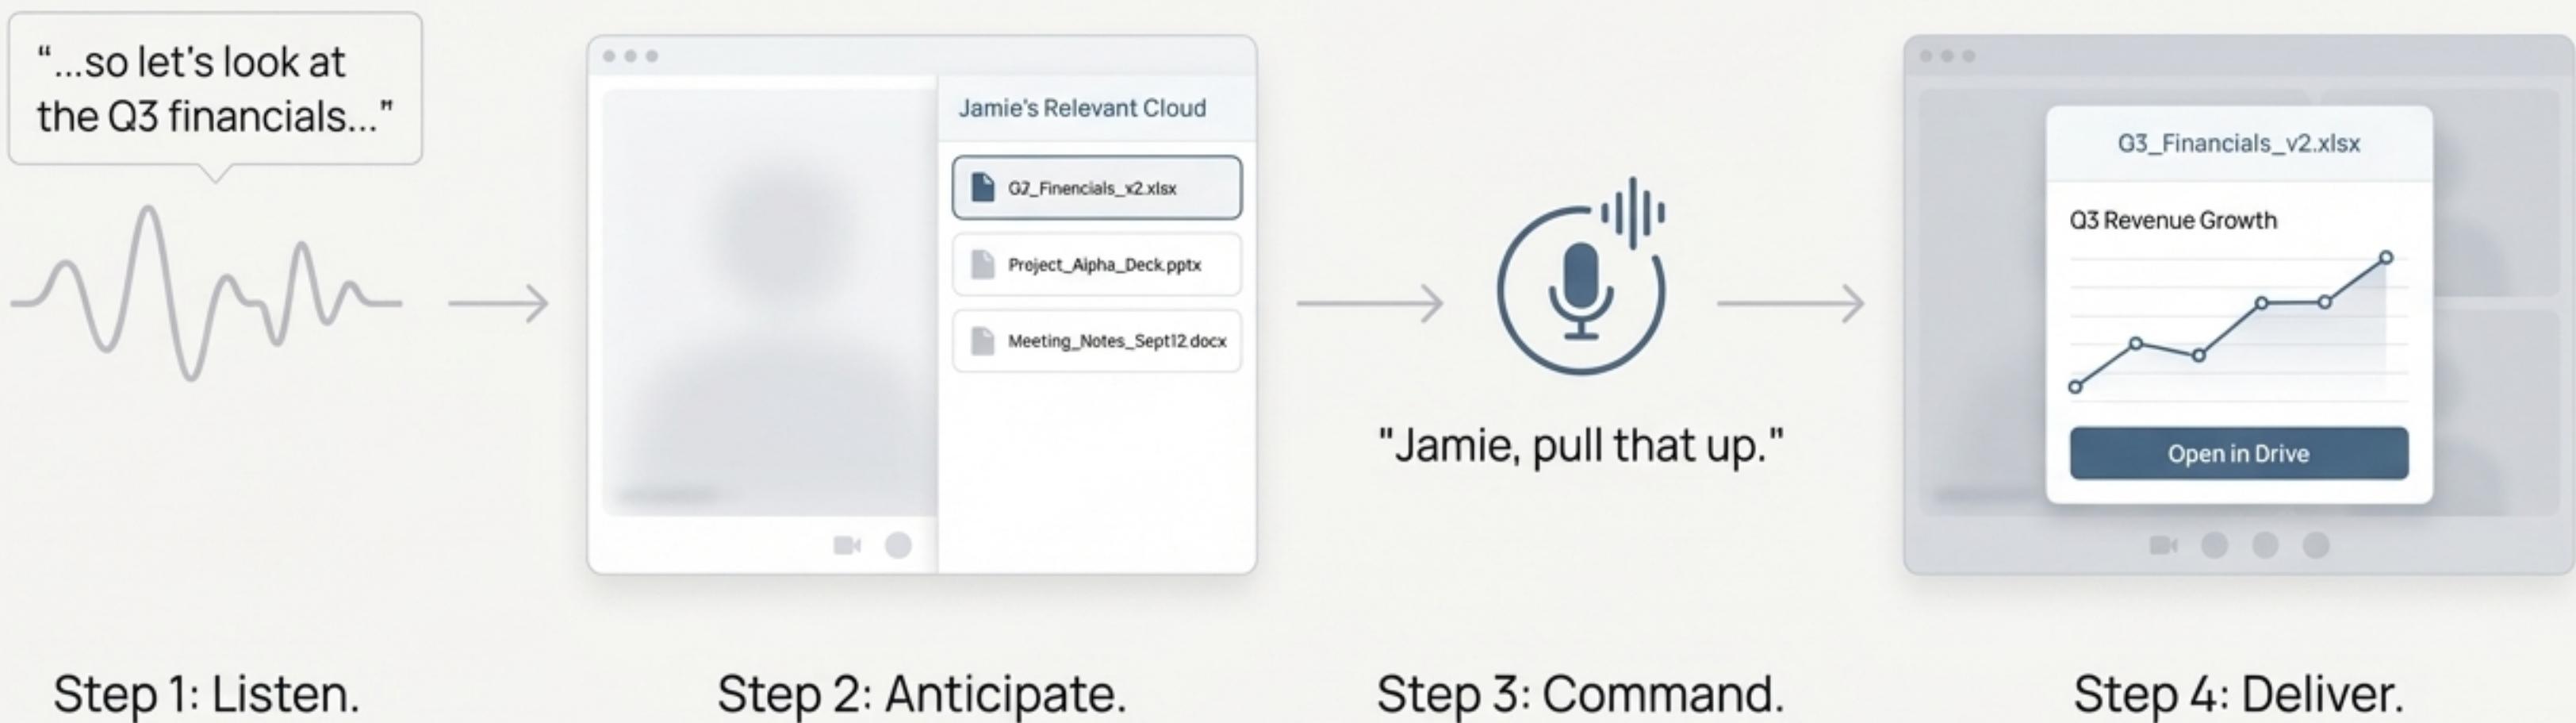

For a 1,000-person enterprise, the Context Gap costs over **\$15M** in lost productivity every year.

Meetings Should Be About Flow, Not Friction.

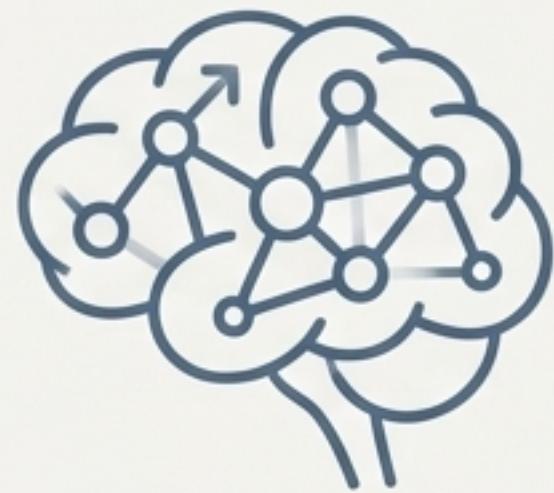

Imagine a hyper-competent producer in every meeting, anticipating your needs and delivering information the moment you need it.

**Meet Jamie.
jamie.**

See Jamie in Action.

The Engine Behind the Flow.

Background Contextualization

Jamie builds a temporal graph of the meeting, understanding that “the deck” mentioned now is different from “the deck” mentioned 10 minutes ago.

LLM-Powered Intent Resolution

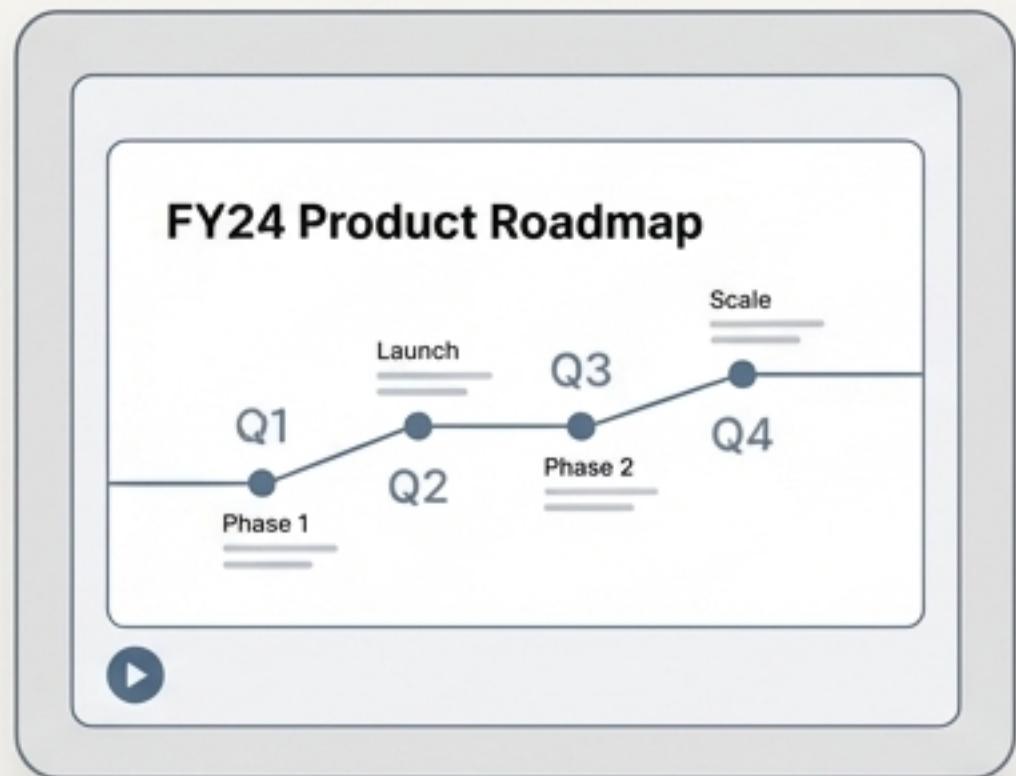

Maps vague verbal pointers like “the update from Tuesday” to specific file metadata.

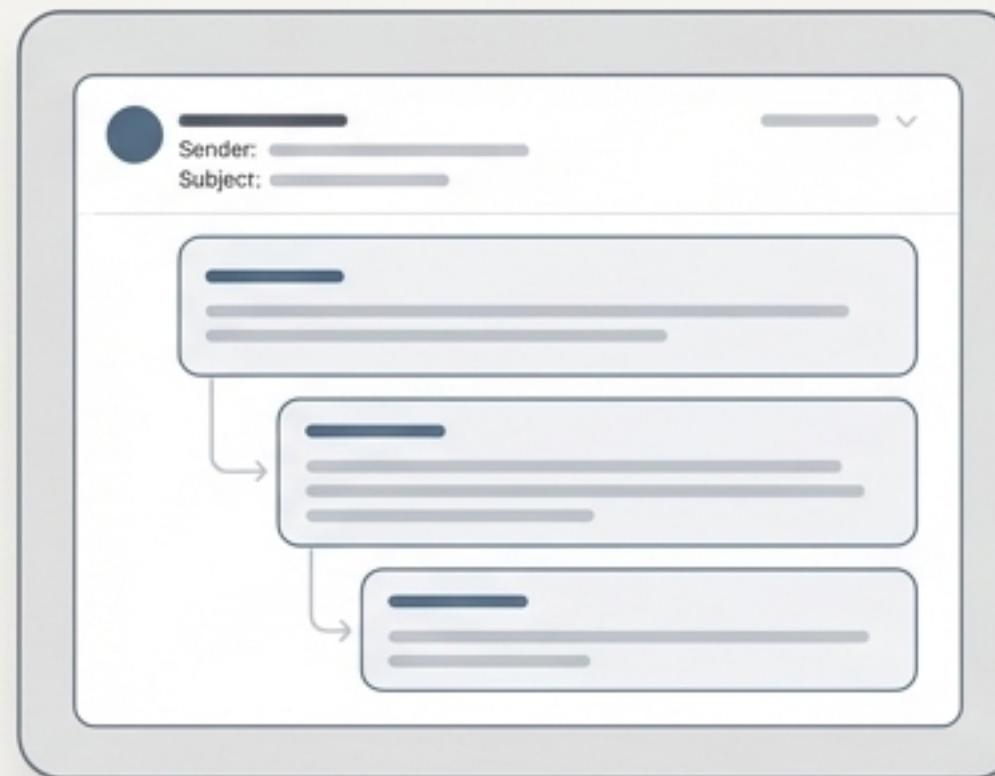

Seamless & Secure Integration

Connects directly to enterprise data stores (Google Workspace, O365) to ensure all permissions and security are respected.

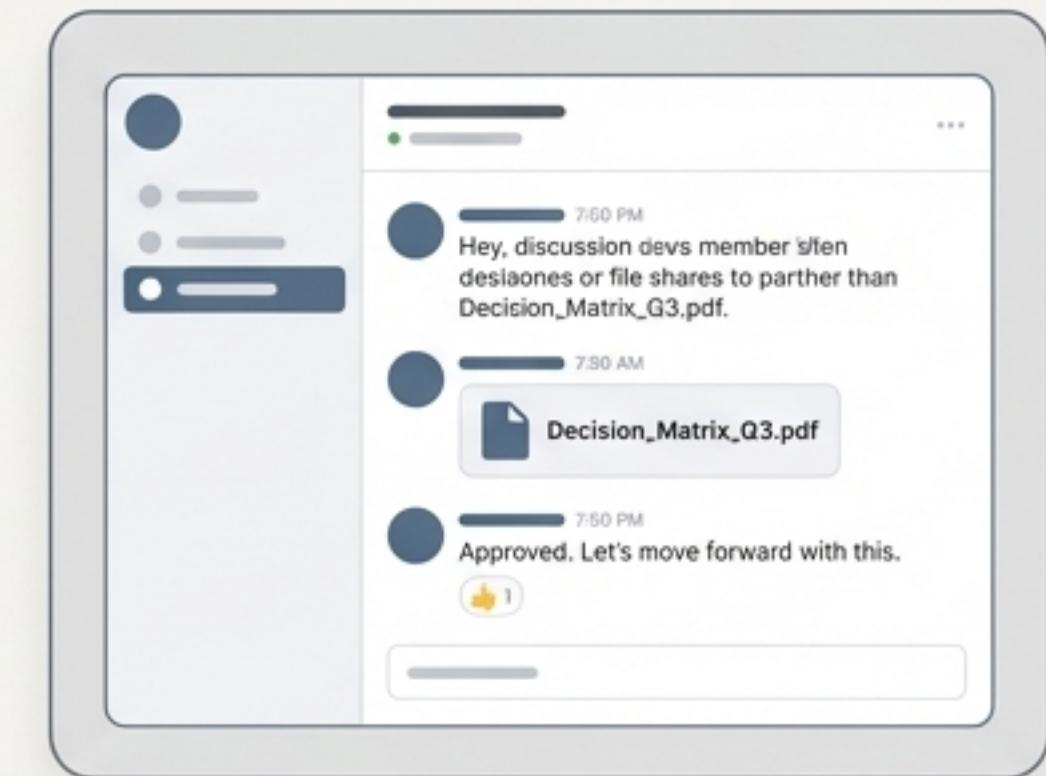

Beyond Documents. Context, Delivered Intelligently.

Jumps to the **specific slide mentioned**, not just the first page.

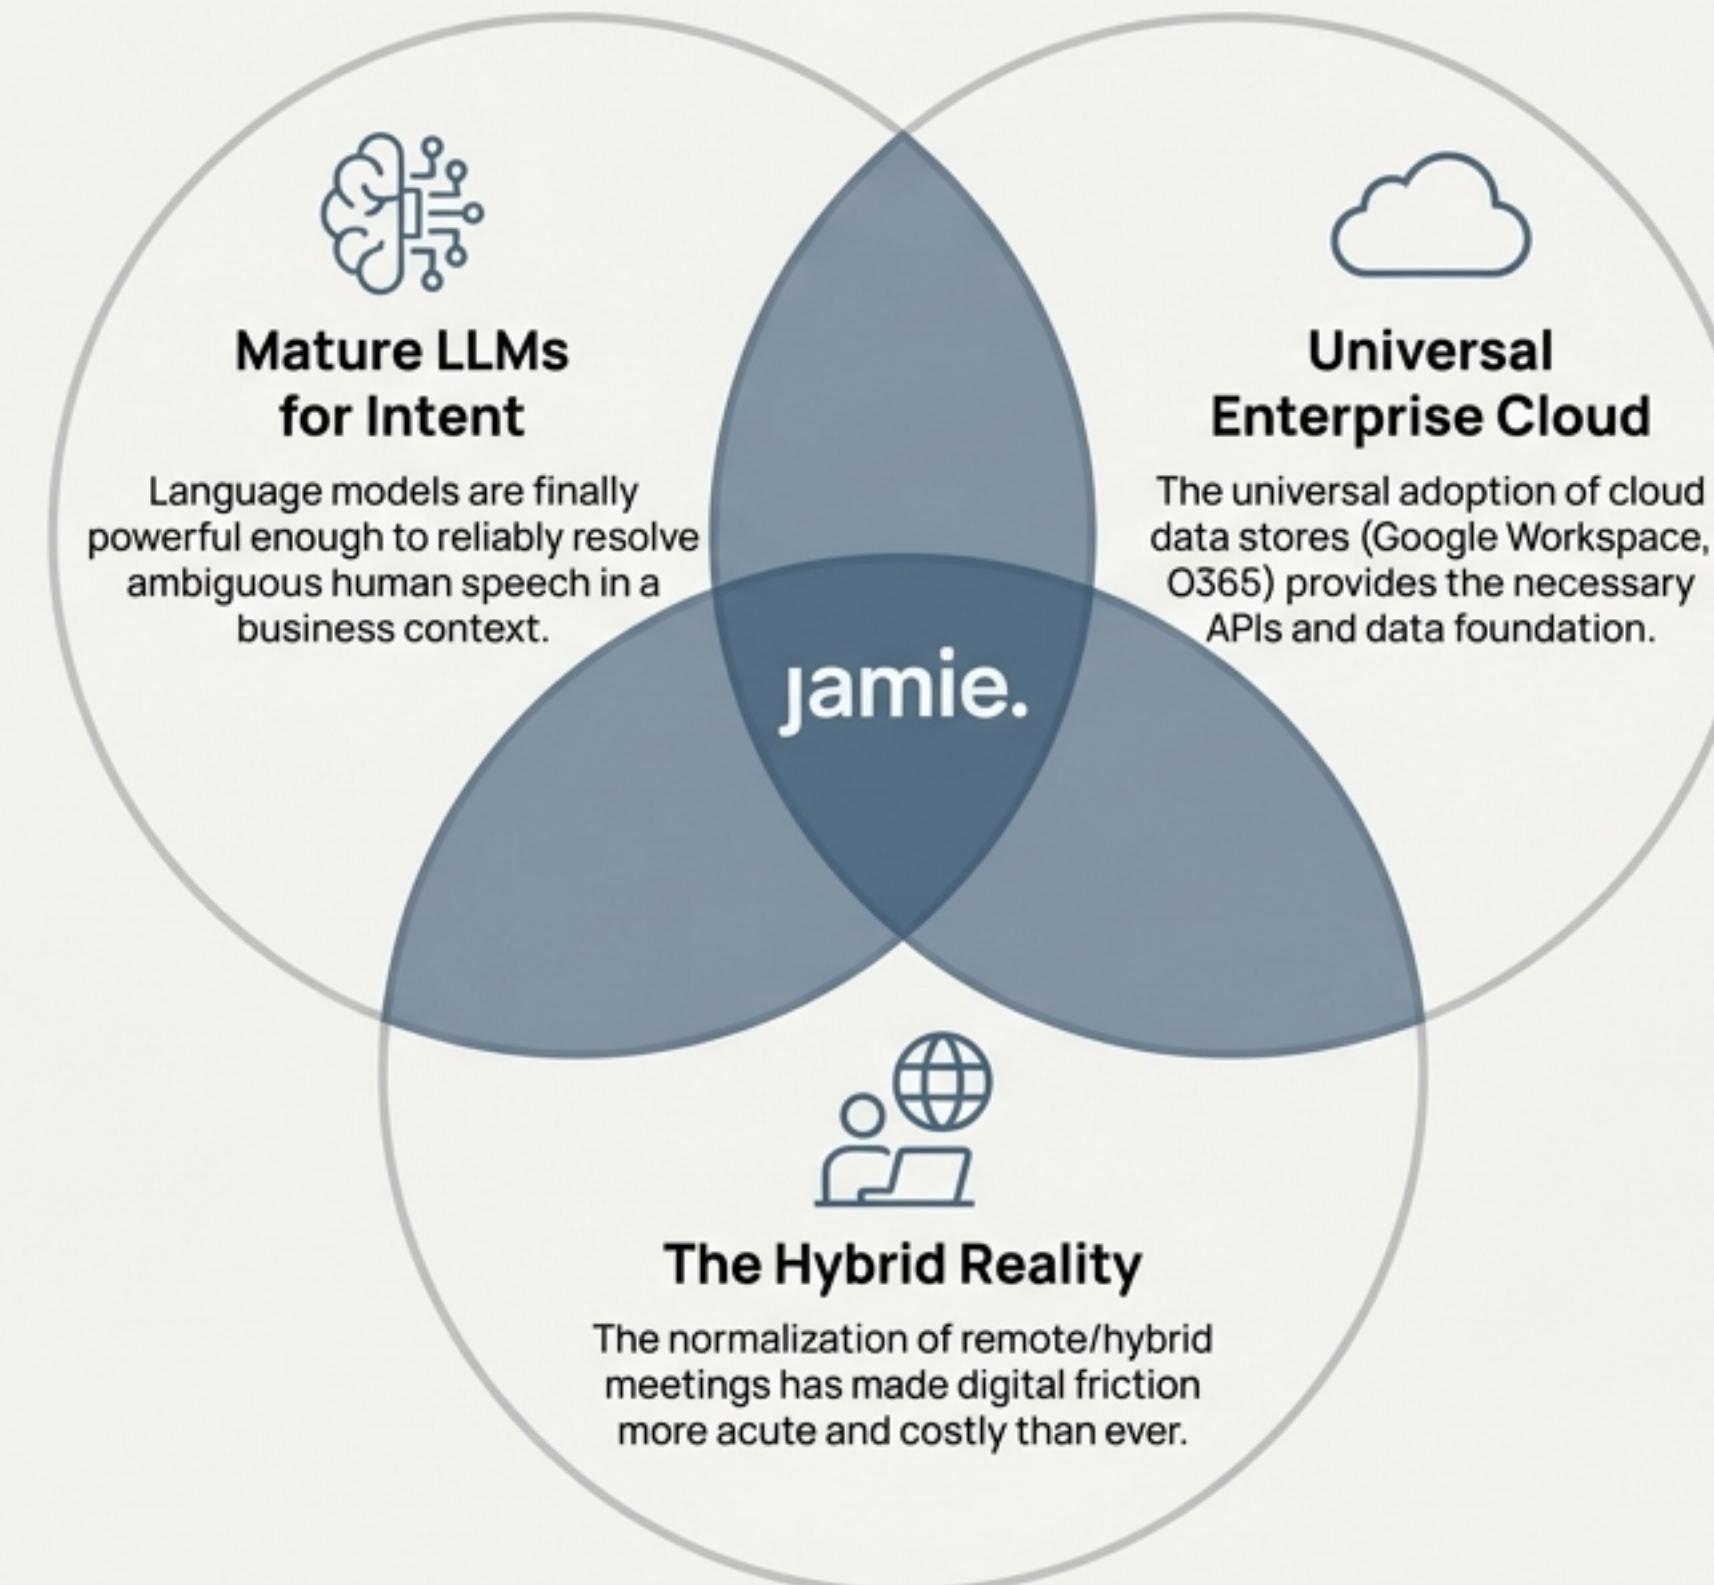

Renders full email threads for complete context.

Displays relevant chat history around key decisions or file shares

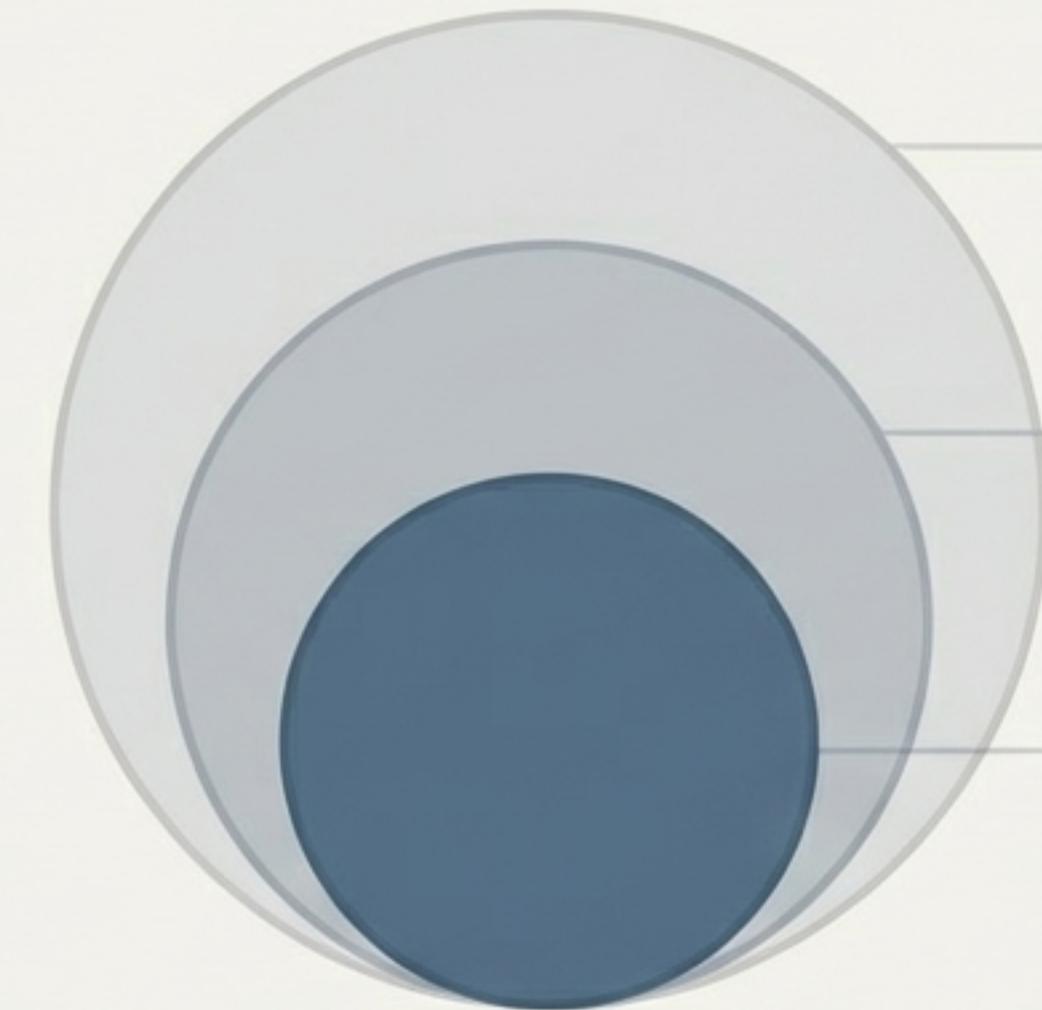

The Market is Ready. The Moment is Now.

The Multi-Billion Dollar Flow Market.

High-stakes knowledge teams:

-  Sales & CS
-  Executive Leadership
-  Product & Engineering
-  M&A and Legal

TAM: Global information workers.

SAM: Enterprise teams on Google Workspace & Microsoft 365.

SOM: 100 Enterprise Sales Teams (Year 1 Target).

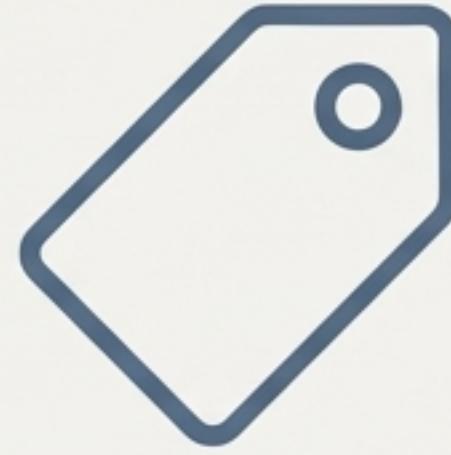

**Unlocking millions in
productivity per customer.**

Our Go-to-Market Strategy

Beachhead Market

Focus on Enterprise B2B Sales teams, where meeting efficiency directly translates to revenue.

Business Model

B2B SaaS. Per-seat, per-month subscription with enterprise-wide licensing tiers.

Integration-Led Growth

Deep integrations with Google Workspace, Microsoft 365, Slack, and Salesforce to become an indispensable part of the existing enterprise stack.

The Team Built for This Challenge

[Founder Name 1], CEO

Brief bio highlighting previous successful exits, enterprise SaaS leadership, or relevant product vision experience.

[Founder Name 2], CTO

Brief bio highlighting deep expertise in LLMs, natural language processing, or building scalable enterprise-grade systems.

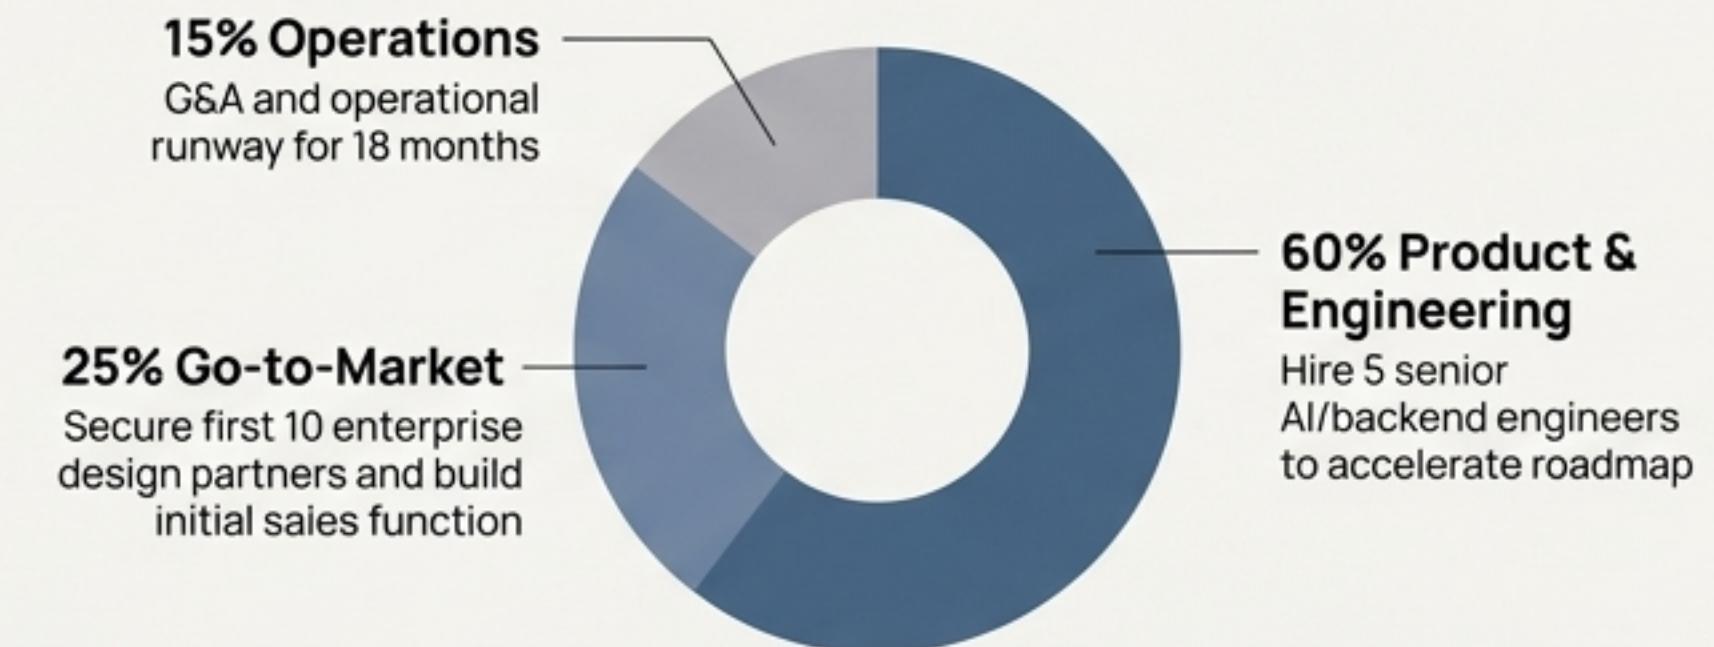

[Founder Name 3], CPO/Design

Brief bio highlighting experience in designing intuitive, user-centric products for complex enterprise workflows.

The Ask.

Raising a \$X.XM Seed Round

Use of Funds.

From Friction to Flow.

Jamie is building the future of work, where meetings are for breakthroughs, not search bars.
